(54) Title: AN APPARATUS FOR OPERATING A DISTRIBUTION CHUTE FOR CHARGING ORES AND COALS INTO A FURNACE

(57) Abstract: There is provided a driving apparatus for a blast furnace charging distribution chute capable of uniformly distributing charging material. The driving apparatus for a blast furnace charging distribution chute includes: a driving unit comprising a crankshaft connected to a motor to rotate with a variable rotational radius; a power transmission unit comprising a plurality of connection rods connected to the driving unit to linearly transmit power; and a working unit connected to the power transmission unit and fixed to circumference of a distribution chute to rotate or tilt the distribution chute.
